I Predict There Will Be More Money Made in

Goldfield Ledge

At 10c a Share Than Any Mining Stock Now Offered the Public. base My Reasoning on a Formidable Array of Facts.

Are there any better mining engineers in the country than W. H. Smith, of the famous Comstock Lode, with \$24,000,000 production; G. P. Ober, United States Deputy Surveyor, and Thomas Withers, connected with the greatest mines and railroads in this country?

WHAT MORE OR BETTER EVIDENCE DO
YOU WANT OF THE EXTREME RICHNESS
OF THIS GREAT PROPERTY?

Some of my competitors may I mm too conscient.

I WOULD PREFER TO SELL LESS STOCK THAN HAVE IT SAID I KNOWINGLY MIS-REPRESENTED A SINGLE SALE.

If you were to ask me to give you my honest opinion exarding Goldheid I edge, I would say unheadatingly hat I believe this stock will advance to 55.00 a share eithin the next few months, and it would not be surrising if it went to double this figure.

Without in the least exaggerating, I believe the Golded Edge the greatest buy on the market, and in my pinion it will take only a few works to prove this interment to your entire satisfaction.

The Mining Record states Wingfield and Nixon have ust paid \$19,000,000 for the Combination Mine, and that suthhour D. Arcy & Sons sold their interest in the Lark.
